

# The Media is Not Reality

The media (t.v., movies, newspapers, magazines, book publishing conglomerates, and all major Internet corporations like Google and Facebook) is the greatest enemy of freedom today. People are forced to live in a media-constructed version of reality, and not in reality itself. Reject the shackles of this artificially imposed reality. Reject the false messages of the controlled media. Embrace instead the unalterable truth of your own eternal consciousness and of God's unlimited love. Reality is not the perverse nightmare that the media falsely portrays. Reality is beautiful. Reality is good. God is true reality.
